

Table of Contents
Bulletin of the Malaysian Mathematical Sciences Society
Volume 35 • Number 1 • 2012

1. **Jensen's Operator and Applications to Mean Inequalities for Operators in Hilbert Space**
Mario Krnić, Neda Lovričević and Josip Pečarić
2. **Chromaticity of Complete 6-Partite Graphs with Certain Star or Matching Deleted**
H. Roslan, A. Sh. Ameen, Y. H. Peng and H. X. Zhao
3. **Existence of Periodic Solutions of $p(t)$ -Laplacian Systems**
Liang Zhang and Yi Chen
4. **A q -Analogue of the Meyer-König and Zeller Operators**
Nazim Mahmudov and Pembe Sabancıgil
5. **The Edge Steiner Number of a Graph**
Michael B. Frondoza and Sergio R. Canoy, Jr.
6. **A Note on Graded Components of Local Cohomology Modules at the Earliest Level of Non-Artinianess**
Chia S. Lim
7. **Simple Groups Which are 2-Fold OD-Characterizable**
M. Akbari and A. R. Moghaddamfar
8. **On Lower Semi-Continuity of Interval-Valued Multihomomorphisms**
S. Pianskool, P. Udomkavanich and P. Youngkhong
9. **A Production and Repair Model under a Time-Varying Demand Process**
Mohd Omar and Ivan Yeo
10. **On Sum-Connectivity Index of Bicyclic Graphs**
Zhibin Du and Bo Zhou
11. **Strong Vector Equilibrium Problems on Noncompact Sets**
San-Hua Wang, Qiu-Ying Li and Jun-Yi Fu

12. On Gracefulness of Directed Trees with Short Diameters

Bing Yao, Ming Yao and Hui Cheng

13. C-Characteristically Simple Groups

M. Shabani Attar

14. Common Fixed Point of Weakly Compatible Mappings in Quasi-Gauge Space

Sushil Sharma and Prashant Tilwankar

15. Notes on Non-Vanishing Elements of Finite Solvable Groups

Liguo He

16. The Measure-Theoretic Entropy of Linear Cellular Automata with Respect to a Markov Measure

Hasan Akın

17. Geometric Properties of Generalized Bessel Functions

Saiful R. Mondal and A. Swaminathan

18. A New System of Nonlinear Variational Inclusions with (A_i, η_i) -Accretive Operators in Banach Spaces

Fengrong Zhang, Zeqing Liu, Shin Min Kang and Young Chel Kwun

19. Capability of a Pair of Groups

A. Pourmirzaei, A. Hokmabadi and S. Kayvanfar

20. On Joint Distributions of Order Statistics from *innid* Variables

M. Güngör

21. The Influence of CAP^* -Subgroups on the Solvability of Finite Groups

Jianjun Liu, Xiuyun Guo and Shirong Li
